

NOTES FOR FAERIE

Learns secret from the Zacathans because he uses it on young worlds where he has to remain hidden to the natives. Faerie takes it and uses it for the girl and himself.

Faerie is a descendant of a ruling class/saying and doing things which have queer results. He has no understanding where it comes from. Castle deserted because people had been preyed on so much. Finds indications that there are visitors by night not at day time. Attempt on girl's life since she is humanoid. (His life could slowly shift from day to night time activities)-

ORLAN - Faerie ARLAN - Girl Faerie

Orlan considers possibility of sister. She isn't because he has not sprouted wings in time and is far older than he seems.

Girl with wings (Arlan) being kept prisoner and used as bait to catch other members of clan, who believe she is a traitor to help enemy. Faerie also believes this. Malin suggests hypnotic control.

Faerie steals her and takes her into the country side- hopes for Malin's help. They are cut off by search party (Faerie and girl) He has to watch her constantly. She tries to return to the head in the mountain (as if under compulsion)

Wings glow in moonlight. Use secret to make them invisible.
